July 13, 2004

- Update on muon chambers: we're going somewhere

At IUCF

8 chambers $101'' \times 47'' \times 3''$, weighing about 150–200 lbs a piece (16 channels each)

At IUCF

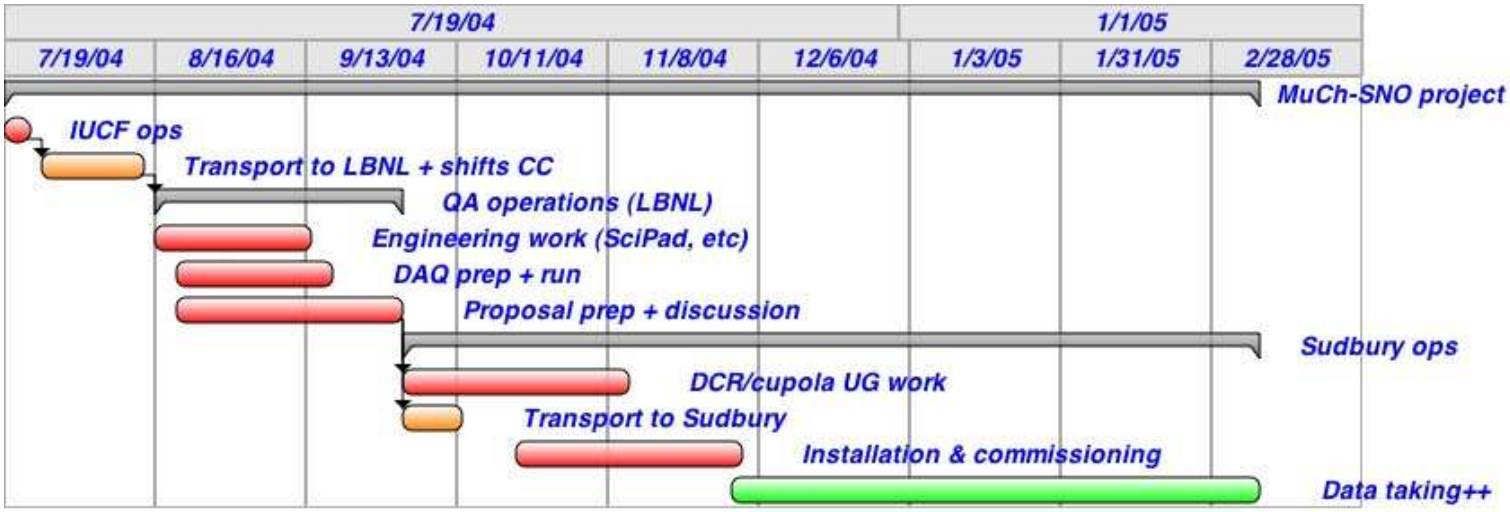
At IUCF

Some electronics/spare parts available (no details yet). Will be bundled with the chambers.

At IUCF

Gas distribution.

At IUCF

Temptative project schedule


- crates getting built at the shop (LBNL) and to be sent to IUCF this week
- RH to take delivery of the chambers at LBNL, around 8/2–8/4
- census to determine manpower (RH, Yoichi, JoeF ++)
- engineering: scintillator pads for trigger, support
- proposal to be prepared within Muon Working Group
